

Yolo Doge Coin

WHITEPAPER

www.yolodogecoin.com

Yolo Doge, a new cryptocurrency set to launch in JULY 2021, aims to be one of the fastest-growing coins in the world. Yolo Doge is originated and launched by the core team of WallStreetBets. At the beginning of 2021, in the GME event, retail investors overwhelmed all the Wall Street short sellers under the leadership of WallstreetBets. Therefore, we recruited professional promotion team, trading team and technical team to develop a new Yolo Doge mechanism. We will spare no efforts to offer each retail investor the best opportunities.

It is not intended to create or in any way put into effect a contractual relationship through the information contained in this whitepaper. This whitepaper is primarily designed to provide relevant information to potential holders so that they can comprehensively analyze the project and make an informed decision. It is imperative that you read this whitepaper carefully before partaking in Yolo Doge Coin. Statements, estimates and financial information in this whitepaper incorporate and consider certain known and unknown risk factors, which could affect estimated results in fact or influence them substantially, factually and significantly differing from those forward-looking statements.

Welcome to Yolo Doge

Founded in July 2021, Yolo Doge aims to be a decentralized meme project with a real purpose. A core objectives of Yolo Doge is to make popular cryptocurrency concepts more accessible to the public. Yolo Doge's holders can get to experience next-gen developments like Asse appreciation, NFTs, and decentralized exchanges.

Yolo Doge's list of products includes...

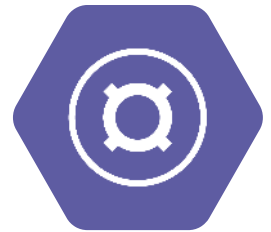

Yolo Token

Yolo Doge features a 15% transaction Tax

Yolo Doge SWAP

This decentralized exchange allows holders to trade any BEP20(BSC) token for another, and it offers custom functionality.

Yolo Doge NFT

We also who earn staking fees from NFT Marketplace, wfeature artists from WallStreetBets community contests hich allows users to stake Yolo to earn NFTs.

Wallet Tracking

A Wallet Tracker that enables Holders track their earnings from \$Yolo, as well as their wallet balance and toke prices.

Motivation

Yolo Doge Coin

6

We have successfully fought against Wall Street and believed in the power of individual investors to beat financial institutions, we have already won in the stock market, and now we see new opportunities in the cryptocurrency market, so WallStreetBets come to the market again. Hoping to create another GME, and to make Yolo Doge Coin grow by at least 10,000 times.

Since the Bitcoin created a gain of 85 million times, and it's worth as much as \$40,000, but the profits already no longer belong to investors but to those Wall Street vampires who constantly manipulating the Bitcoin's rise and fall, especially the prices has fallen by almost 30 percent , the investors have to lose money in stead of making money. In such a situation, we wanted to launch Yolo Doge, which is not only a meme coin, but also a cohesion for our community.

You only live once. For us, it is meaningless if not to try All In on Yolo Doge. We can recreate the legend of GME together! Join us!

Trust

There is no substitute for trust when it comes to cryptocurrencies. To ensure holders' funds safety, we mean not only providing transparency, including but not limited to audits of Yolo's code.

Transparency

Yolo keeps the holders informed at every stage of the project's growth by maintaining open communication.

Longevity

Yolo looks forward to a long-term partnership. We aim to provide sustainable gain and enjoyment for all Yolo holders

Community

At the end of the day, Yolo Doge is a community owned project, so we encourage collaboration between members in marketing development, community management and technical support.

In July 2021, Binance Smart Chain will launch a BEP20 token called YoloDoge.

Yolo Doge features a 15% transaction Tax

5% redistribution to all holders, as a result of which existing holders automatically earn \$Yolo during each transaction

3% redistribution to holders who hold more than 24h
(If you have sell out, the timer will reset)

5% will go back to the LiquidityPool (LP)

1% for lottery: 10 of the holders will be randomly selected, and equally divide it.
(Follow us on twitter)

1% for marketing

Distribution

Yolo Doge Coin

9

Max supply of token is

1,000,000,000,000,000

Blackhole (60%)

60% of the total supply has been burnt from the master wallet

Liquidity & Circulation (30%)

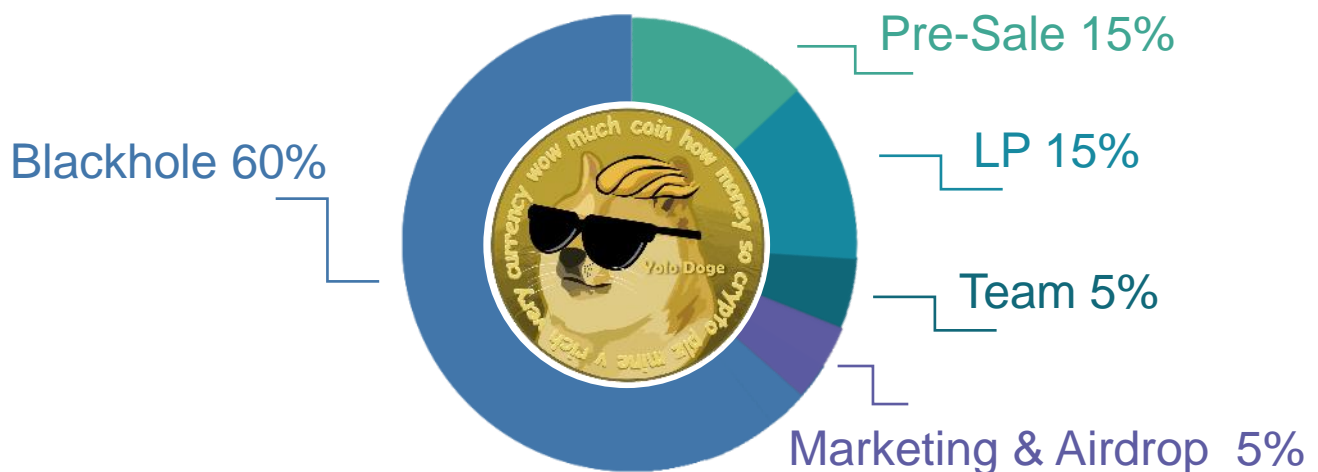

15% of the total supply will be presales

15% of the total supply will go into Liquidity Pool (LP)

Future project spending (10%)

5% of the total supply will be prepared for marketing and airdropped to initial supporters and random wallet holders in the World of Cryptocurrency.

Reserved for the team: **5%** of the total supply that belong to the founder team has been locked until Yolo Doge grew by 20000% 🚀🚀🚀

In the spirit of Yolo, we will carry out a campaign to eliminate the project initiators. When the increase reaches a certain target, the project initiators will automatically enter the black hole address, and gradually let yolodoge achieve the real sense of community autonomy, and take action to defeat all the giant whales!

SWAP

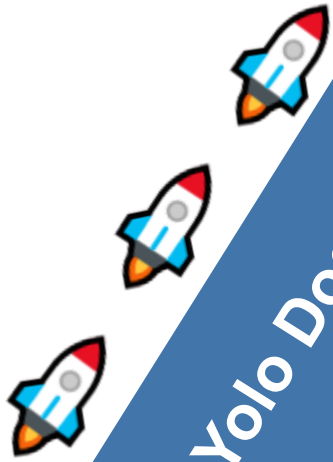

Yolo SWAP is a decentralized ex-change (DEX), users can swap any BEP20 token for another one. With the help of PancakeSwap, one of the world's largest and safest DEXes, Yolo will be able to develop its own functionality for Yolo Doge Coin holders.

Yolo NFT marketplace

In the future, we will build a series of Yolo NFT around YoloDoge, which can be traded in the market, cooperate with major IDOL, and develop a complete NFT ecological world, where people can earn tokens and make investment.

Yolo founding

By offering holders official merchandise, Yolo's community takes Yolo to the mainstream together. Holders can fund future development of yolo by cryptocurrency.
